Amendment dated September 12, 2005
Reply to Office Action of June 15, 2005

of claim 16 discussed in the preceding paragraph. However, claim 18 should remain allowable if rewritten in independent form.

Conclusion

The Examiner's combination of Ganther and Hirano fails to disclose or suggest various currently claimed features of the present invention, including, for example, a FLL operable for location in a non-cryogenic environment and an unmodulated FLL including only linear componentry.

Thus, Applicant respectfully submits that claims 1, 3-7, and 9-21 are in allowable condition and requests a corresponding Notice of Allowance. In the event of further questions, the Examiner is urged to call the undersigned. Any additional fee which might be due in connection with this application should be applied against our Deposit Account No. 19-0522.

Respectfully submitted,
